

Stericurtain

Features:

A cost-effective and sustainable alternative to disposable cubicle curtains, Stericurtain is a reusable PVC cubicle curtain with anti-microbial properties and a wipe-clean surface that prevents the spread of infection in hospital wards.

- ✓ 100% polyester PVC laminated fabric
- ✓ Biosafe anti-bacterial accredited
- ✓ Flame retardant to BS5867 Part 2 Type C
- ✓ Easy fit to existing cubicle track glider and roller hooks
- ✓ Available in standard sizes or made to measure

Benefits:

Switching to a reusable curtain brings huge long term cost savings - no more waste, facilities or laundry costs. The wipe-clean surface can be cleaned immediately using a detergent, unlike other absorbent curtains. Stericurtain will never tear, stain or develop mould, mildew or odours and has a lifetime warranty. Available in Seafoam Blue as standard with other colours available on request.

Specification:

YewdaleHarrier® Stericurtain as supplied by Yewdale, 01268 570900. Flame-retardant 100% polyester PVC laminated fabric for hospitals and healthcare environments, various sizes available.
